[C]ycle ES88 SERIES

The [C]ycle Marker, ES88 Series, is SUNNYPRO's 30th-anniversary product, awarded Japan's Good Design Award. In Taiwan, it not only received the Golden Pin Design Award but was also shortlisted for the Best Design of the Year and nominated for Germany's iF Design Award. It features advanced airtight plastic molding technology and an eco-friendly design. This product is refillable, easy to disassemble, and is made from a choice of virgin PP materials, GRS-certified recycled PP materials, or a newly patented biodegradable PP material. This new material meets PAS 9017:2020 standards and can be biodegraded by microorganisms in natural environments, without causing microplastic pollution, while also being compatible with recycling systems. This award-winning marker demonstrates SUNNYPRO's commitment to reducing carbon emissions and plastic waste in line with its sustainability goals.

FEATURES

- Refillable
- Easy Disassembly
- Recyclable
- Biodegradable
- Multiple Inks Available

BIODEGRADABLE

This material uses patented biodegradable plastic technology certified by PAS 9017:2020. If the product accidentally enters the natural environment, it can be biodegraded by over 90% within two years, breaking down into organic matter, water, and carbon dioxide, without producing microplastics or causing environmental harm. More importantly, this material is compatible with standard plastic recycling systems, encouraging its components to enter circular recycling and reuse systems.

- Non-toxic, low odor
- Quick-dry, smooth writing
- Easy to erase
- Colors are vivid and long-lasting, resistant to fading
